KAPIL KUMAR KOL

-Software Engineer

ABOUT ME

"Iam a dedicated and enthusiastic software developer with a passion for crafting efficient, clean, and robust code. My programming journey began with a strong foundation in Java and C, and I have since honed my skills in object-oriented programming, debugging, and exceptional problem-solving. I have a keen eye for detail and a commitment to writing code that is both reliable and maintainable.I am adept at using a variety of tools and technologies, from Git and Postman to MySQL and HTML/CSS. My proficiency extends to both Linux and Windows operating systems."

PROJECT

Candidate Management Website

http://white-force.com/plus

Description

- Candidate Database: Easily create and store candidate profiles, including their personal information, qualifications, and work history. This database allows recruiters to quickly access and review candidate details.
- Client Management: Keep track of your clients and their specific requirements. Our platform allows you to maintain a database of client information, ensuring you have the necessary details at your fingertips when needed.
- Position Management: Effortlessly manage job positions and their associated requirements. You can create, edit, and update job positions, making it simple to match candidates with the right roles.
- Interview Scheduling: Our intuitive scheduling system enables recruiters to efficiently coordinate interviews with candidates. You can set interview dates, times, and locations, and even change the interview stage with ease.
